

BROOKVENT aircycle^{3.1}

A NEW Standard in
Heat Recovery
Ventilation

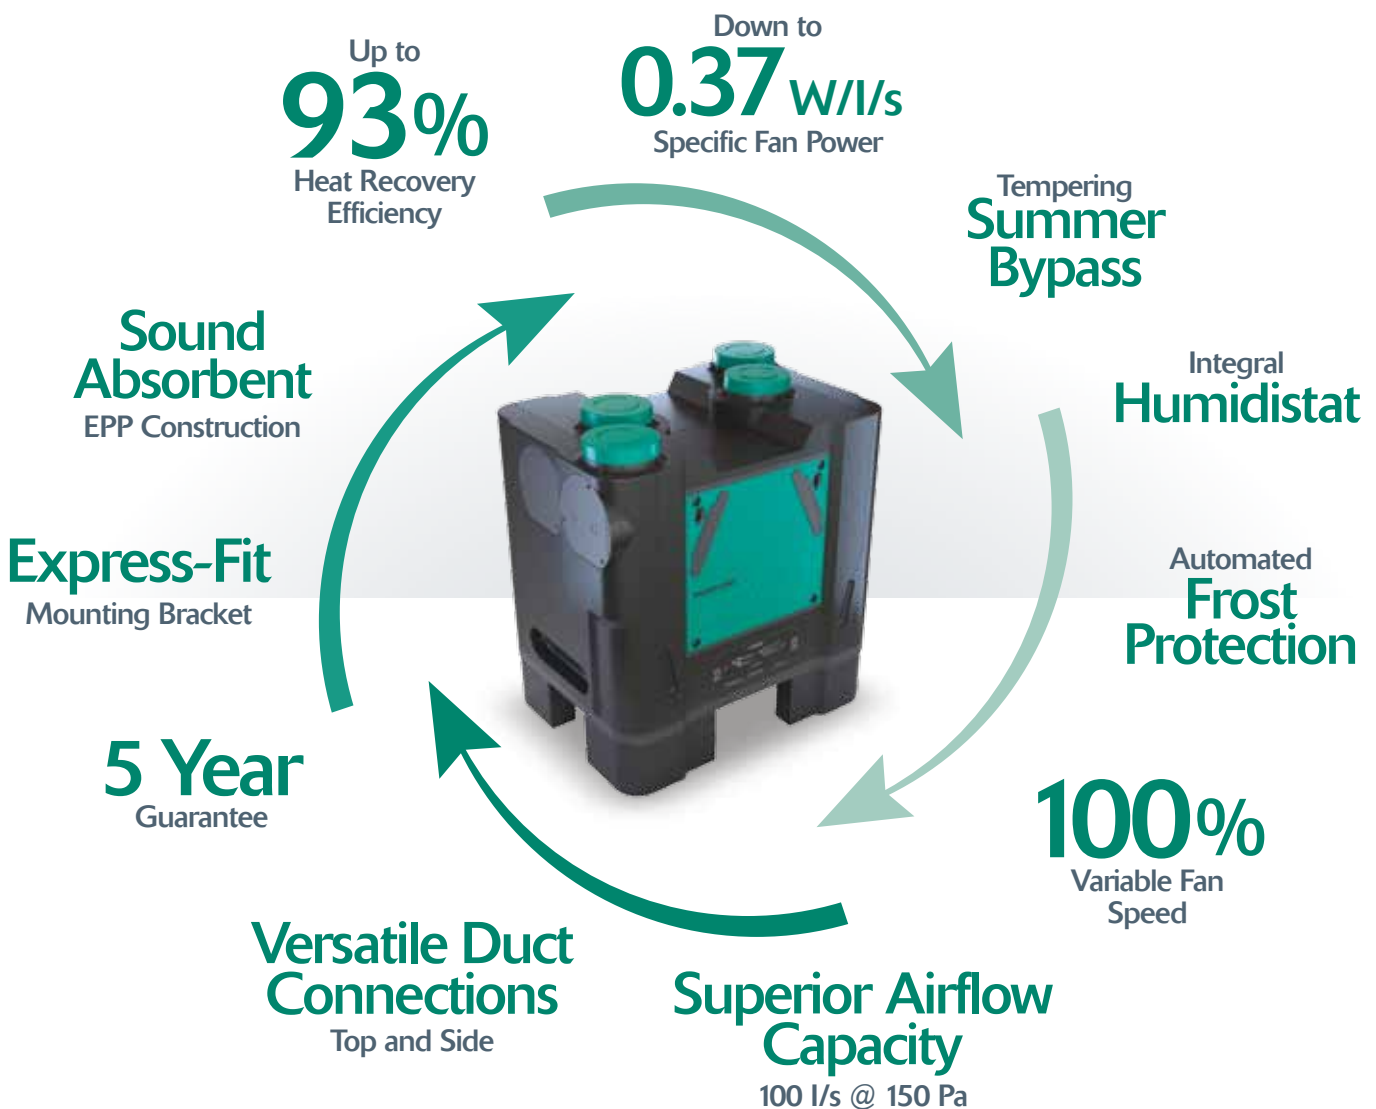

MARKET LEADING EFFICIENCY

0.37 W/l/s
SPECIFIC FAN POWER

BROOKVENT aircycle 3.1

Sophisticated fan control technology coupled with intelligently designed internal aerodynamics has enabled the Brookvent aircycle 3.1 to set **a new standard in Heat Recovery Ventilation efficiency.**

The aircycle 3.1 succeeds in balancing the trade-off between airflow, efficiency, and acoustic performance, offering a system that delivers true comfort ventilation for the end user. Precise airflow controls ensure that the system can be easily and accurately commissioned, while intelligent, automatic controls consistently monitor indoor air quality, ensuring the system responds to the changing needs of the occupier.

Ideal for:

Housing

Apartments

Student
Accommodation

Care Homes
